

“ The project will enable citizens of the Mull Archipelago to work together, take ownership, design and deliver their transition to carbon neutral. ”

The EU Islands Facility NESOI is pleased to introduce the clean energy projects receiving its support:

# AMAZE

## Archipelago of Mull Actions for Zero Emissions

<b>Country</b>  UK	<b>Islands</b> Mull, Iona, Ulva, Gometra, Erraid, Inch Kenneth	<b>Project promoter</b> Mull and Iona Community Trust (MICT)	<b>Sector</b> Plan	<b>Project value</b> 120,779,500 €
---	---	---	-----------------------	---------------------------------------

### What is the project about?

- The project addresses the specific issues faced by small islands: grid constraints, fossil fuels dependence, electricity interruptions, poor insulation, ageing and remote populations, low incomes; limited public transport, access to services deprivation...
- The project will deliver a Clean Energy Transitional Agenda (CETA) based on community engagement, creating a shared vision towards carbon neutral islands.
- The project will also study the feasibility for a Electric Vehicle and Renewable Energy Hub Network.

### How will the EU Islands Facility NESOI support the project?

>> *Elaboration of a Clean Energy Transitional Agenda (CETA)*: support community participation processes, local community engagement workshops, CETA phases 1 and 2.

>> *Feasibility study*:

- Analysis of existing planning documentation, identification of the project boundaries
- Assessment of the key project sizing drivers taking also into consideration local characteristics
- Identification of suitable technological options given existing project sizing requirements and constraints
- Cost-Benefit analysis, impact evaluation, identification of the preferred option
- Risk analysis and identification of available mitigation strategies; assessment of existing procurement options
- Financial modelling and identification of target scenario, identification of financing/funding options
- Action plan and identification of project monitoring procedures

*The Isle of Mull*
